

Project Central

Labs

The labs are meant to scaffold and build the work needed to complete the final project. This will help us complete the work over the quarter instead of all at the end! If you receive feedback on something in a lab, it is expected to be fixed for the next lab and final project.

Lab					
Instructions	Points	Editing file	Rubric	Due Date	Topics
Lab 1	21			07/19	Learn about WBNS + prepare your folders + download data
Lab 2	28			08/09	Filtering data + creating variables
Lab 3				08/16	Summarize your data
Lab 4				08/30	Visualize your data

Final Project: Information Sheet

We are going to create a scrollable information sheet (aka an html document) using the Well-Being and Basic Needs Survey.

- Some ideas for information sheets: <https://venngage.com/templates/infographics/statistical>
